Education

Good Shepherd College Of Engineering — Marthandam,Kaniyakumari dist Tamilnadu
Computer Science Bachelor Of Engineering — Nov 2020 - Jul 2024

Experience

UprootSecurity | **Associate Front end developer** — Remote | Nov 2024 - Present

- Contributed to UprootSecuritys evolution from a service-oriented security business to a product-driven GRC platform, building solutions that address real-world compliance and security challenges.
- Built features that help organizations automate compliance processes, manage security risks, and streamline governance workflows.
- Collaborated across frontend and backend development to integrate APIs, deliver end-to-end functionality, and improve the usability and reliability of the platform.

Igoraza | **Part-Time Front-end Developer** — Remote | Feb 2023 - Jun 2024

- Developed and maintained responsive web applications using **React.js, HTML, CSS, and JavaScript**
- Collaborated effectively with cross-functional teams to deliver high-quality and user-friendly web experiences.
- Implemented Tailwind CSS for efficient and **maintainable UI styling**
- Contributed to a positive development environment by participating in code reviews and troubleshooting web application issues.

Freelance Web Developer

- Developed and maintained dynamic user interfaces using React.js, HTML, CSS, and Tailwind CSS, collaborating closely with clients to deliver custom, responsive websites that met their needs.
- Researched and implemented emerging web technologies to improve website functionality, user experience, and aesthetics.

Skills

Programming Languages:	Python, Bash, JavaScript, Solidity, TypeScript, Golang
Libraries/Frameworks:	ReactJS, NextJs, Astro, TailwindCSS, Foundry, NodeJs
Tools / Platforms:	Git, Prisma, Linux, Sequelize, Redis
Databases:	MongoDB, Postgresql

Projects / Open-Source

BlockSimulate | **Link** — *Golang,Fiber,ReactJs*

- Developed a blockchain simulator using **Go** with **Fiber framework** to create fast and scalable RESTful APIs
- Built a user-friendly **front-end interface** to help users explore blockchain principles and understand concepts intuitively.
- Implemented secure cryptographic techniques for wallet creation, transaction signing, and blockchain operations.

Blockchain Complaint Management System | **Link** — *ReactJs,TailwindCSS,ThirdWeb,Solidity*

- Implemented User Management with Secure Registration and Complaint Updates
- Enabled Public Complaint Search with Privacy Protection for Personal Data
- Streamlined Admin Panel for Efficient Complaint Resolution

Copyslate | **Link** — *NextJS,TailwindCSS,MongoDB,Prisma*

- Implemented Personalized Text Sharing with Custom Links and User Branding.
- Enabled Easy Text Access via Web Browser for Seamless Sharing and Collaboration

Blog2Buzz | Link *NextJs,Supabase,WebScraping,Gemini,PostHog*

- AI-powered Content Curation and Summarization Platform using Next.js
- Implemented Web Scraping with Cheerio to Gather Latest Blogs and Tags from DEV.to.
- Integrated AI to Generate Twitter Posts and Medium Write-Ups based on Selected Blogs.

Buymeacoffee dApp | Link *TypeScript,Solidity,ether.js,NextJS*

Developed a Decentralized Donation Platform (dApp) using Solidity for Smart Contract Functionality Enabled Secure and Transparent Tip/Donation Processing via Ethereum Blockchain

NFT-finder | Link *ReactJS,Alchemy API*

- Developed an NFT Discovery Tool using React.js and Alchemy API for Blockchain Data Retrieval.
- Enabled Users to Search and View All NFTs Owned by a Specific Account Address

OnChainKit, Coinbase | Link *Typescript,Tailwindcss,CSS,MDX*

- Recognized for significant contributions to Coinbase's OnChainKit project, with my profile added as a contributor on GitHub.

Fetlla Finance App | Link *Next.js, TypeScript, TailwindCSS, ShadCN UI, TanStack Query*

- Co-developed a financial management platform actively used by Fetllas core team for internal ledger tracking and invoice generation.
- Delivered clean, modern UI/UX using **Shadcn UI** and optimized data fetching with TanStack Query for a responsive experience.
- Recognized as an official GitHub community contributor by the Fetlla team.

Certifications

- Certified Blockchain Practitioner (CBP) - **The SecOps Group**
- React Basic Certificate - **Hackerrank**
- API Security Fundamentals - **APISec University**
